

Abstract

The present invention relates to novel Aerothricins represented by the Formula (I),

and pharmaceutically acceptable salts thereof.

The present invention also relates to a pharmaceutical composition comprising an Aerothricin of the Formula (I) and a pharmaceutically acceptable carrier. Furthermore, the present invention relates to the use of such Aerothricins for the preparation of medicaments, as well as to processes for the preparation of the Aerothricins of the Formula (I).
